

YOUR FREE LAUNCH GIFT FROM PIRATE ACADEMY

The Family Digital Health Check

A 5-minute check-in to see where your family is thriving online — and where a small change could help.

*Technology isn't the enemy. The goal isn't to raise children who fear technology — but children who can **navigate** it.*

C.A.R.E. for the digital era

Helping families thrive together online

Built on the CARE Framework

Pirate Academy helps families **CONNECT** (build trust), **ASK** (think before acting), **REFLECT** (notice feelings) and **EMPOWER** (build skills). This free check-in is your starting point.

How we USE technology

Tick what's already true in your home:

- ☐ Screens are away during meals
- ☐ Devices charge outside bedrooms at night
- ☐ We have some daily screen-free time
- ☐ Stopping screens rarely causes big arguments

How we STAY SAFE online

Tick what's already true in your home:

- ☐ We know which apps & games our children use
- ☐ Our children know never to share personal info
- ☐ Accounts & profiles are set to private
- ☐ Our children know they can tell us about anything online

How confident do we feel? (1 = not yet · 5 = really confident)

Talking openly about what our children do online

Handling screen-time without daily battles

Knowing what to do if something goes wrong online

Modelling the habits we'd like our children to have

Mostly ticked & 4-5s? You're doing brilliantly. Lots of blanks & 1-3s? That's exactly what the next page is for.

YOUR NEXT SMALL STEPS

🏴 Turn one blank box into one small win this week

You don't need to fix everything. Pick **one** thing from page 1 and agree a tiny change together. Write it here:

☐ This week, our family will try:

☐ We'll know it's working when:

If something goes wrong online: STOP → SAVE → TELL

STOP

Don't reply or make it worse.

SAVE
